

ALUMINIUM SLING

This is a truly all-weather material without the need for any cushions or storage facilities. Using powder coated Aluminium Extrusions (except Hammock and Bistro Items which are part steel) coupled together with a sling webbing for the seat & back section on the chairs makes these items light weight for ease of moving yet highly comfortable without the need for any cushions. Tables are designed with either glass in lays or the Easy stone on glass to give the product a luxury appearance without breaking the budget.

Bullet Points for Range:

- Aluminium Frames (except Hammock & Bistro Set)
- Powder coated paint finish in Bronze or Champagne
- All-weather man made Sling
- Either Stacking chairs or folding recliners available for ease of storage
- Glass Tops for easy cleaning
- Easy Stone on Glass for a Luxury appearance
- Toughened Safety Glass
- 5 position folding recliners
- Safety catches used on recliners
- Easy Clean (see Maintenance notes below)
- 2 year manufacturers guarantee (Domestic Use Only).

The Aluminium Sling range can be cleaned using a soft brush and a bucket of warm soapy water to remove any dirt and rinsed down with clear water. The glass can be polished with any suitable glass cleaner and soft rag. The Easy Stone on glass required the initial cleaning in sentence 1, allow to dry thoroughly before applying a suitable stone sealer periodically to protect the stone from staining. Trivets / placemats should be used on all tables to help protect the surface from being scratched and will help to prolong the look and newness of the product.

ALWAYS:

- Use a trivet to protect the table surface from Hot pans and dishes
- Clean off any spillages to the cushions using a damp sponge or cloth to prevent any staining / permanent damage

NEVER:

- Place hot dishes or plates directly onto the Table surface
- Use a power washer to clean the furniture
- Stand on the tables
- Sit in the chairs with a knife or sharp instrument sticking out of your pocket as this can cut or tear the Sling which will result in irreparable damage
