

## ASHBOURNE WEAVE RANGE

A unique range of furniture blending 2 weave widths together around an Aluminium tubular frame which has been powder coated for all-weather durability. Using a Sky Blue double piped boxed pad for the seat section and plump back cushions for the lounge sets compliments the grey blue flat weaves making this a modern yet versatile combination. Tables are designed with a blue / grey foiled glass in-lay for easy cleaning. There is a storage shelf under the table top on the round 4 & 6 seat dining sets.

### Bullet Points for Range:

- Aluminium Frames
- Hand woven furniture with a Dual 2 width weave
- Powder coated paint frames to protect against the elements
- Stacking Dining chairs for ease of storage
- Double piped boxed Cushions
- Cushion covers are zipped for ease of removal for cleaning purposes
- All Cushions are Fire Retardant
- Glass Tops for easy cleaning
- Toughened Safety Glass
- Easy Clean (see Maintenance notes below)
- 2 year manufacturers guarantee (Domestic Use Only).

The Ashbourne furniture can be cleaned using a soft brush and a bucket of warm soapy water to remove any dirt and rinsed down with clear water. The glass can be polished with any suitable glass cleaner and soft rag. Trivets / placemats should be used on all tables to help protect the surface from being scratched and will help to prolong the look and newness of the product. Cushions are zipped for ease of removal to enable the fabric to be hand washed or dry cleaned.

### ALWAYS:

- Use a trivet to protect the glass surface from Hot or extremely cold pans and dishes
- Clean off any spillages to the cushions using a damp sponge or cloth to prevent any staining / permanent damage

### NEVER:

- Place hot dishes or plates directly onto the Table surface
- Use a power washer to clean the furniture
- Stand on the tables
- Sit in the chairs with a knife or sharp instrument sticking out of your pocket as this can cut or tear the fabric or weave which will result in irreparable damage
- Leave spillages to remain on the fabric as these may stain and become a permanent mark
